**Indonesia Next:**

# Leading the Digital Age with Government and Industry Collaboration

**06 – 07 August**

Jakarta International Convention Center (JICC)  
Senayan, Jakarta - Indonesia

SUPPORTING PARTNERS:

**06 – 07 August 2025 • Jakarta International Convention Center (JICC), Senayan**

The **"Indonesia Next: Leading the Digital Age with Government and Industry Collaboration"** conference focuses on Indonesia's rapid digital transformation and the crucial partnership between government and industry in driving this progress. The conference agenda tackles key challenges and opportunities, emphasizing the need for a robust digital infrastructure, inclusive access to technology, and a skilled workforce equipped for the digital economy. Keynote speakers and panel discussions will illuminate strategies for navigating Indonesia's unique digital landscape, addressing issues such as bridging the digital divide, ensuring cybersecurity across critical sectors, and building a resilient and sustainable digital ecosystem.

Specific industry sectors will be examined in detail, including telecommunications, data centers, mining technology, FMCG, manufacturing, healthcare, infrastructure, transportation and logistics, education, tourism and many more. Each sector's digital transformation journey will be explored, highlighting successful strategies, innovative solutions, and best practices. Discussions will center on how technologies such as AI, machine learning, IoT, and advanced analytics can optimize operations, enhance efficiency, and improve service delivery across these diverse sectors. The role of data centers in supporting national digital initiatives will also be a prominent theme, alongside crucial conversations on cybersecurity, data privacy, and building a robust cybersecurity talent pipeline.

Furthermore, the conference will emphasize the importance of citizen-centric government services, promoting transparency and trust through open data initiatives. Building a future-ready workforce capable of meeting the demands of the digital age will be a recurring focus, highlighting the need for strategic upskilling and reskilling programs. The conference encourages collaboration and knowledge sharing, with ample networking opportunities for attendees to connect with industry peers, government officials, and technology experts. The ultimate goal is to foster a dynamic and collaborative environment that accelerates Indonesia's digital progress and establishes it as a leader in the digital age.

**06 – 07 August 2025** • Jakarta International Convention Center (JICC), Senayan
