

CONFERENCE AGENDA

5 - 6 AUGUST 2026

Jakarta International Convention Center (JICC),
Senayan - Indonesia

**“SECURING INDONESIA’S DIGITAL & PHYSICAL FRONTIERS:
FROM CYBER DEFENSE TO NATIONAL RESILIENCE -
INTEGRATING PEOPLE, TECHNOLOGY,
AND INTELLIGENCE”**

STRATEGIC GOVERNMENT PATRON

CO-HOST:

KNOWLEDGE PARTNER

STRATEGIC ORGANIZING PARTNER

SUPPORTING PARTNERS

Indonesia's rapid digital transformation has expanded the use of digital systems across government finance, energy, transportation, telecommunications, and public services. As reliance on National Vital Information Infrastructure (IIVN) grows, Indonesia faces increasingly complex and cross-domain cyber threats, making cybersecurity a strategic pillar for protecting digital sovereignty, economic stability, and public trust.

This national priority is clearly reflected in Presidential Regulation No. 47 of 2023 on the National Cybersecurity Strategy and Cyber Crisis Management and Presidential Regulation No. 82 of 2022 on the Protection of National Vital Information Infrastructure, which position cybersecurity as a whole-of-nation responsibility under the leadership of the National Cyber and Crypto Agency (BSSN).

Aligned with this policy framework, Cyber Resilience & Defense Conference & Expo 2026 serves as a strategic platform supporting the implementation of Indonesia's cybersecurity agenda. The conference convenes policymakers, regulators, state-owned enterprises, industry leaders, CSIRT communities, and international partners to strengthen collaboration, operational readiness, and long-term resilience.

The agenda spans national policy alignment, critical infrastructure protection, evolving cyber threats, and operational readiness across key sectors. It also addresses emerging technologies, human capital, and regional cooperation—positioning Indonesia within the broader ASEAN cybersecurity landscape.

More than a conference, Cyber Resilience & Defense Conference & Expo 2026 supports BSSN's mandate, strengthens national cyber resilience, and reinforces digital trust as a foundation for sustainable economic growth and Indonesia's long-term vision toward becoming one of the world's leading economies by 2045.
